Same brain but different

Your a-maze-ing brain

Wrinkle the brain

Colour by function
Junction between 2 neurons where there is a small gap that neurotransmitters help nerve impulses to cross.

Carries an electrical signal from the cell body (soma) to the synapse.

Messenger of neurologic information from one cell to another.

Conduct electrical messages to the neuron cell body for the cell to function.

The production of new neurons.

Responsible for processing of long term memory and emotional responses.
What's that part?

- Axon
- Cell body
- Nucleus
- Dendrites
- Myelin sheath
- Axon terminals

Neuroscience crossword

Vegetable Crossword:
- Axon
- Cerebellum
- Dendrites
- Bohn
- Synapse
- Cerebral
- Gliotoxin
- Corpus callosum
- Hippocampus
- Gyrus
- Dentate
- Thalamus
- Ganglia
- Brainstem
- Corpus
