

# TOGETHER, WE'LL BREAK THROUGH.

ROTARY  
QLD'S CENTENARY

## BREAK THROUGH PROJECT

for UQ's Queensland  
Brain Institute

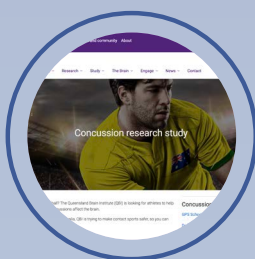

Join us to help raise \$5 Million by 2025 to benefit the Queensland Brain Institute at The University of Queensland. All Clubs in Districts 9620, 9630 and 9610 are invited so that credit is shared by Rotary Queensland to achieve an Endowed Chair, which will exist in perpetuity, at UQ's Queensland Brain Institute.

The Queensland Brain Institute is highly regarded worldwide as a leading neuroscience research institute. Neuroscientists and PhD scientists focus on two of the greatest challenges facing the global community today:

- 1 understanding brain function
- 2 the prevention and treatment of disorders like dementia, including Alzheimer's, and Parkinson's Disease.

Money raised will give a leading neuroscientist and their team the freedom to be brave and innovative and provide the opportunity to explore new horizons that have never been investigated before. Who knows, Rotary's support could be the catalyst for the breakthrough that changes lives forever more.

Download and use the digital images, videos and push messages out to your club members and others in your community to get behind this great cause.
